# Adventurer 3

Desktop Minimalist 3D Printer

Allocated with fully upgraded patented extruder assembly, steady filament loading structure, turbofan and air guide, the printing result of Flashforge Adventurer 3 is greatly improved. Ready-to-use and Non-leveling design avoid imprecise printing from improper leveling operation.

- Simplized, portable and compact design
- Stainless Nozzle: detachable buckle design, easy installation
- Auto filament feeding with an enclosed built-in filament cartridge
- Removable and flexible heated print bed
- 45 Decibel, ultra quiet during operation
- Built-in 2 million pixel WiFi HD camera for remote monitoring
- 3D Cloud for remote control
- One spool of filament is included

Redesigned from the ground up, the new extrusion system takes the hassle out of every element of printing!

Heating up to 200 degrees in 60 seconds.

Swap out the complete nozzle in seconds thanks to a new hot swappable design, with an inbuilt heating cartridge and thermistor.

Surrounded by a plastic shell to protect your hands, the nozzle can be replaced faster than any other printer.
Removable and flexible heated print bed

Press down and slide out, the flexible build plate helps you to remove printed objects at ease. Slightly bending the plate and hassle leaves.

A heated bed that happily goes up to 100 degrees celsius.

PARAMETERS

PRINT

Extruder number:	1
Extruder diameter:	0.4mm
Highest set temperature of extruder:	240℃
Build volume:	150*150*150mm
Print speed:	10-100mm/s
Highest set temperature of platform:	100℃

DEVICE

Printer volume:	388*340*405mm
Screen:	2.8-inch Touch Screen
Net weight:	9kg
Input:	100-240 VAC,47-63Hz
Power:	150w
Internal storage:	8G
Spool:	52mm

COMMUNCATION

Data transmission:	USB stick,Wi-Fi,Ethernet,FlashCloud,PolarCloud
Software:	FlashPrint
Output:	GX/G files
Input:	3MF/STL/OBJ/FPP/BMP/PNG/JPG/JPEG files
